

Personal Beauty

Day Spa Experience

Begin with clean skin by using the Timewise Cleanser (remove with warm wet washcloth)

Place multiple wash cloths into a crockpot of warm water.

Step One

Apply a generous amount of the Indulge Soothing Eye Mask to the

entire eye area, using a gentle stippling/patting method.

Step Two

Using a generous amount of the Extra Emollient Night Cream for really Dry Skin Types, Intense Hydrator for normal to dry or Oil Free Hydrating Gel for Combination/Oily Skin Types, gently massage over the entire face and neck including the lips.

Avoid the eye mask area.

and breatheslowly and deeply for approximately three minutes.

Step Three

Dampen fingertips.
Apply Satin Lips Mask onto the lip area.

Gently massage the product onto the lips.

Step Four

Squeeze a generous dollop of either Moisture Mask or Revitalizing

Mask or Clarifying

mask (depending on skin type) onto the fingertips.

Gently massage the masking product onto the face and neck.. You want to create a paste of the mask and the moisturizer on the skin. Blend the products into one another by using a gentle circular motion. (NOTE; You are creating the same 'layered' paste effect for the face as you would create with Satin Hands). If product feels dry, dampen finger tips to create a slippery feel to avoid unnecessary pulling on skin

Step Five

Using a generous dollop of the Gentle Cleansing Cream for dry skin, Creamy Cleanser for normal skin or Deep Cleanser for oily skin, and in a gentle circular motion, continue layering the products by gently massaging the Cleanser over the entire face and neck.

Step Six

Remove two wash cloths from warm water , wringing out excess water and allowing to breathe and cool. (check washcloth heat, dabbing onto the underside of your wrist to ensure that the wash cloth is at a comfortable temperature).

Step Seven Place one warm washcloth over the forehead and covering the eyes and onto the nose. Place the second washcloth under the nose and over the lips and onto neck. Relax and breathe for approximately three minutes.

Step Eight

Using the cooled washcloths, proceed to gently remove the Satin Facial products. Wipe gently until no traces of the products remain.

Go to a sink and proceed to final rinse. Splash face with warm water insuring residue has been successfully removed.

Step Nine

Follow with either the Hydrating Freshener(for dry/normal skin) or Purifying Freshener(for combination/oily skin). Apply with a cotton ball, or fill a small spritzer bottle with freshener & with eyes closed spray 6-8 inches away from face..

Step Ten

Apply day or Night Solution, based on time of day. Then apply Time Wise Age fighting moisturizer all over entire face and finish with lip balm.

Day Spa Pricing:

\$ 272.00 retail....

**Set special
only**

\$199.00 !

Travel Roll up bag is your gift with purchase a \$50 value
