

Mary Kay TimeWise Ultimate Miracle Set Success Story

After 8 Weeks with Glamour

I never felt as though I was one of those people who had terrible acne, but I also never wanted to admit to myself that my skin needed a good product and regime to be its best.

I had the expensive products and I visited the dermatologist often when the latest and greatest topical antibiotics hit the market. But nothing helped to calm and control red blotches, scarring and the breakouts that continued.

With my skin's appearance at its all time worst, I was open try something new! Never did I believe a cleaning and skincare product would give me these results in such a short amount of time.

Now that I have started using MARY KAY TimeWise products, there is such a difference that I realize why I was so upset by my appearance. I would never consider leaving my house without foundation and loads of concealer.

After a few weeks with the product, I can spend a whole day without makeup. My confidence is high and I am enjoying seeing my skin's progression. The product and regime were easy to follow and gave great results immediately.

I can't thank Mary Kay enough for the impact its products have had on my skin as well as my confidence.

Lisa used the following products:

- TimeWise Miracle Set Combination to Oily Formula
