

Mineral Powder Testimonials

♥ "Feel my face!!! I can't believe my skin feels so soft from the new Mary Kay mineral foundation." BareMinerals for 3 years, per dermatologist recommendation

♥ "Mary Kay's brush is softer; my skin look smoother; the product stays on longer."
17 year old BareMinerals user

♥ "This ain't Mineral Powder ... it's Miracle Powder!!! And it covers my freckles, too."
21 year old BareMinerals user

♥ "This will be so much easier to order and I won't have to throw away things in the Sheer Coverage Kit that I don't need but keep getting every month!"
46 year old Sheer Coverage user for 2 years

♥ "I tried my mom's "dark kit" and my sister's "light kit." I couldn't find any shade that worked. They don't give you enough shades. They tell you to mix, to get the right shade, and I don't want to mix. Plus the instructions are really poor. I like that you are teaching me how to do this, face-2-face, and I can call you with questions."
42 year old Mary Kay user for 10 years, who tested with BareMinerals

♥ "Oh my gosh! My age spot just disappeared! I'm going to like this stuff!"
65 year old "regular" foundation user, after just 1 layer of coverage

♥ "I feel like the powders have a drop of moisture in each grain of powder."
former BareMinerals user

♥ I've observed that my blush stays on all day with the mineral powder foundation."

♥ "My mother is in her mid 50's and she LOVES it! It doesn't settle in her wrinkles and it covers up most discolorations without concealer!" 20 year old customer

♥ "I hate foundation because it settles into my lines and wrinkles. I was worried that the mineral powder would not work, but I LOVE it!!! It looks great on me!"
60 year old customer

♥ I have eczema, psoriasis, acne-prone, sensitive skin and sensitivity in my eye area to liquids, creams and most all powders. I searched, for years, for something that both my skin and my eyes could handle that would give me the coverage that I need as well. I needed to cover redness, scars, dry, irritated, itchy & flaking skin but, I needed to avoid eye & skin irritation. When I tried BareMinerals I loved the look, the feel, and how my skin reacted to it. ; What I do not like is the routine I had to go through to accomplish the desired look every single day:

"1 shade of BareMinerals Foundation for contouring
1 shade of BareMinerals SPF 15 Foundation for Highlighting
Mineral Veil finishing powder (porcelain finish)
Warmth All-Over Face Color (a bronzer)
Maximum Coverage Concealer Powder

"I loved the look but, the routine was exhausting (shake, swirl, tap, swirl, buff) with 5 different products, with 5 different brushes, to create the very same look of Mary Kay's simple Mineral Powder Foundation.

"I will tell you that the look I desire has been accomplished perfectly with only two layers of the BRAND NEW Mary Kay Mineral Foundation. I am SHOCKED! WOW! As far as my skin conditions go, my skin LOVES the MPF. HURRAY Mary Kay!!!

"I did try the eye shadows for 2 days, then I pitched them in the trash! I found that I just prefer red my Mary Kay Pallet much better over 16 little loose BareMinerals jars.

"I did spend a lot of time doing Makeup Cleanup every single day, with BareMinerals!

"And ... shhh ... don't tell ... my hubby uses Mary Kay's Mineral Powder Foundation because of scaring/age spots he has on his face."

2 former BareMinerals users, husband and wife

♥ "I followed a tip from Make-up Artist Robert Jones and used the tinted moisturizer and then the Mineral powder and loved the outcome even more. In the winter I still apply the TW for Oily Skin Moisturizer and then the Tinted Moisturizer." [Mary Kay Consultant](#)

♥ "And it'll be \$10+ less, per powder, when I refill."
former BareMinerals user
